Quad Cities Greenhouse Gas (GHG) Emissions Inventory Report

Emissions Jan 2025 – Dec 2025

133,400 tCO_2e

Emissions calculations follow the GHG Protocol. Scope 1 denotes natural gas and fuel emissions (both vehicle and equipment), while Scope 2 denotes electricity emissions. Emission factors for translating activity data into emissions are sourced from the EPA.

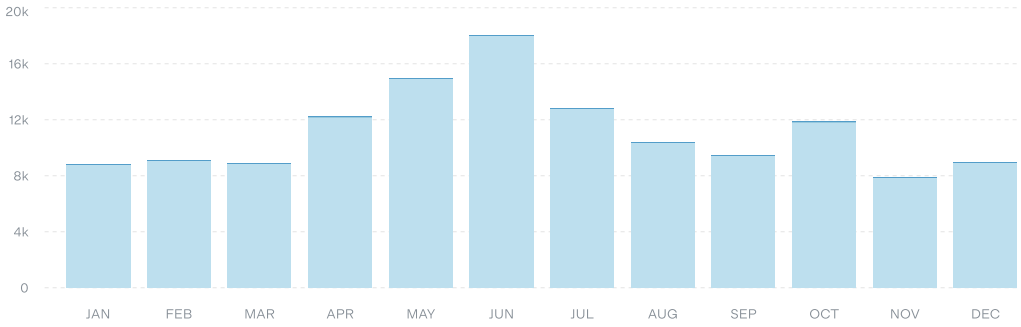

Scope Breakdown

- **Scope 1 · < 1%** — 244 tCO_2e
- **Scope 2 · < 1%** — 373 tCO_2e
- **Scope 3 · 100%** — 132,783 tCO_2e

Emissions by Scope

This is an overview of your emissions, broken down by scope.

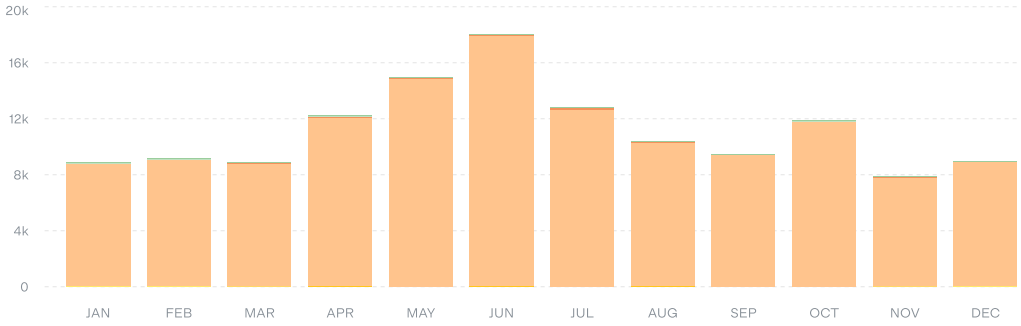

- Scope 1
- Scope 2
- Scope 3

Emissions by Category

This is an overview of your emissions, broken down by source.

- Electricity
- Stationary Combustion
- Fugitive Emissions
- Purchased Goods and Services
- Upstream Transportation and Distribution
- Business Travel
- Waste Generated in Operations
- Fuel and Energy-Related Activities

Category Breakdown

This is an overview of your emission sources ranked from most to least.

Purchased Goods and Services	131,673 tCO_2e	99%	Fuel and Energy-Related Activities	166 tCO_2e	< 1%
Upstream Transportation and Distribution	822 tCO_2e	1%	Waste Generated in Operations	121 tCO_2e	< 1%
Electricity	373 tCO_2e	< 1%	Fugitive Emissions	7.04 tCO_2e	< 1%
Stationary Combustion	237 tCO_2e	< 1%	Business Travel	2.53 tCO_2e	< 1%

Methodological Notes

This report presents your organization's greenhouse gas emissions calculated according to the Greenhouse Gas Protocol (GHGP), the gold-standard methodology for measuring an organization's carbon footprint.

The GHGP prescribes how to classify emissions into Scopes, where to draw the boundaries around an organization's structure, and serves as the basis for virtually every mandatory and voluntary reporting and disclosure framework.

Gravity leverages emission factors to translate business data into emissions data from trusted sources, such as the USEPA and IEA.

Gravity has performed internal quality assurance to provide that data used in calculations is complete and appropriately represents business operations based on our understanding of your organization and the data provided.

Percentages are rounded and may not total 100%. For additional precision, please contact us.
