Greenhouse Gas (GHG) Emissions Inventory Report

Emissions Jan 2025 – Dec 2025

2,322,925 tCO_2e

Emissions calculations follow the GHG Protocol. Scope 1 denotes natural gas and fuel emissions (both vehicle and equipment), while Scope 2 denotes electricity emissions. Emission factors for translating activity data into emissions are sourced from the EPA.

Scope Breakdown

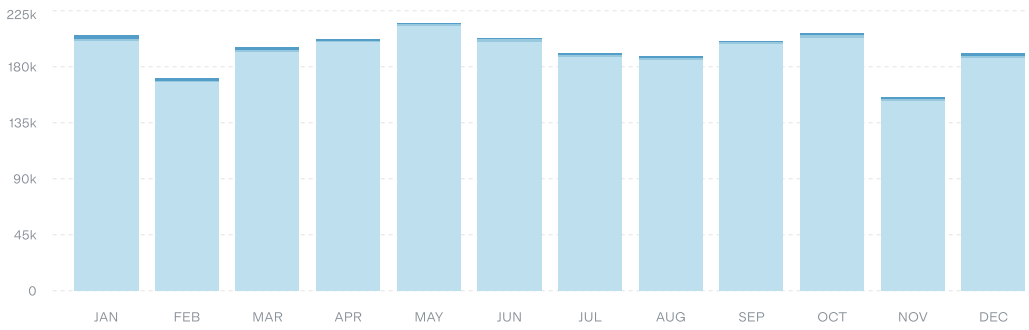

- Scope 1 · 1% — 16,586 tCO_2e
- Scope 2 · 1% — 18,868 tCO_2e
- Scope 3 · 98% — 2,287,471 tCO_2e

Emissions by Scope

This is an overview of your emissions, broken down by scope.

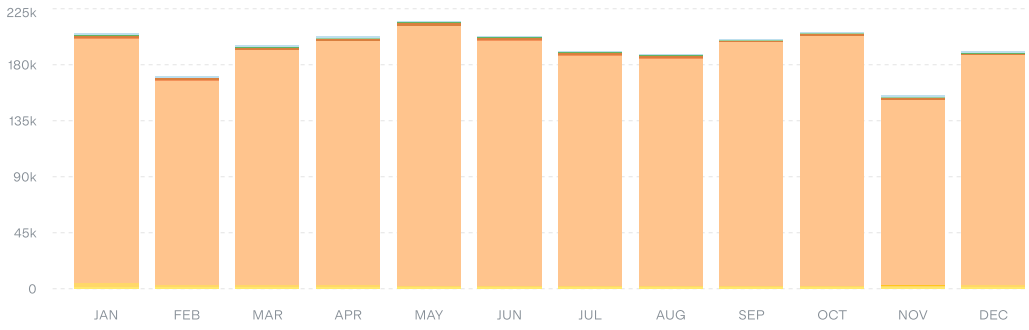

- Scope 1
- Scope 2
- Scope 3

Emissions by Category

This is an overview of your emissions, broken down by source.

- Electricity
- Stationary Combustion
- Fugitive Emissions
- Purchased Goods and Services
- Capital Goods
- Upstream Transportation and Distribution
- Business Travel
- Employee Commuting
- Waste Generated in Operations
- Fuel and Energy-Related Activities

Category Breakdown

This is an overview of your top 8 emission sources ranked from most to least.

Purchased Goods and Services	2,250,138 tCO_2e	97%
Upstream Transportation and Distribution	23,392 tCO_2e	1%
Electricity	18,868 tCO_2e	1%
Stationary Combustion	16,422 tCO_2e	1%
Fuel and Energy-Related Activities	10,170 tCO_2e	< 1%
Waste Generated in Operations	2,682 tCO_2e	< 1%
Capital Goods	687 tCO_2e	< 1%
Business Travel	346 tCO_2e	< 1%

Methodological Notes

This report presents your organization's greenhouse gas emissions calculated according to the Greenhouse Gas Protocol (GHGP), the gold-standard methodology for measuring an organization's carbon footprint.

The GHGP prescribes how to classify emissions into Scopes, where to draw the boundaries around an organization's structure, and serves as the basis for virtually every mandatory and voluntary reporting and disclosure framework.

Gravity leverages emission factors to translate business data into emissions data from trusted sources, such as the USEPA and IEA.

Gravity has performed internal quality assurance to provide that data used in calculations is complete and appropriately represents business operations based on our understanding of your organization and the data provided.

Percentages are rounded and may not total 100%. For additional precision, please contact us.
